Snowmass Workshop on Frontier Capability

Thursday 18 April 2013

April 18, 13:00 - 16:00 International Capabilities and Plans (Chair: J. Galambos) (13:00-16:00)

time	title	presenter
13:00	Cyclotrons for Decay-at-rest Neutrino Production	ALONSO, J.
13:25	PSI capabilities (protons, muons, neutrons) and strengths / limitations of the cyclotron concept	SEIDEL, M.
13:50	ISIS operational experience and upgrade plans relevant to high intensity frontier applications	FINDLAY, D.
14:15	Status of plan of accelerator facilities for precision and intensity driven measurements in China	TANG, J.
14:40	ESS design capability and status	PEGGS, S.
15:05	TRIUMF	BAARTMAN, R.
